Costume Contest

top padding/margin

Duhh, of course ...

costumes.png

will need top + left
duhh section row span
mettfolks + ...

rather than represented

→ probably will use for
most sections - use wireframe
w/ labels & images first

- possible each row split into 2 rows
background for outer TR is green,
headers are purple, font is white

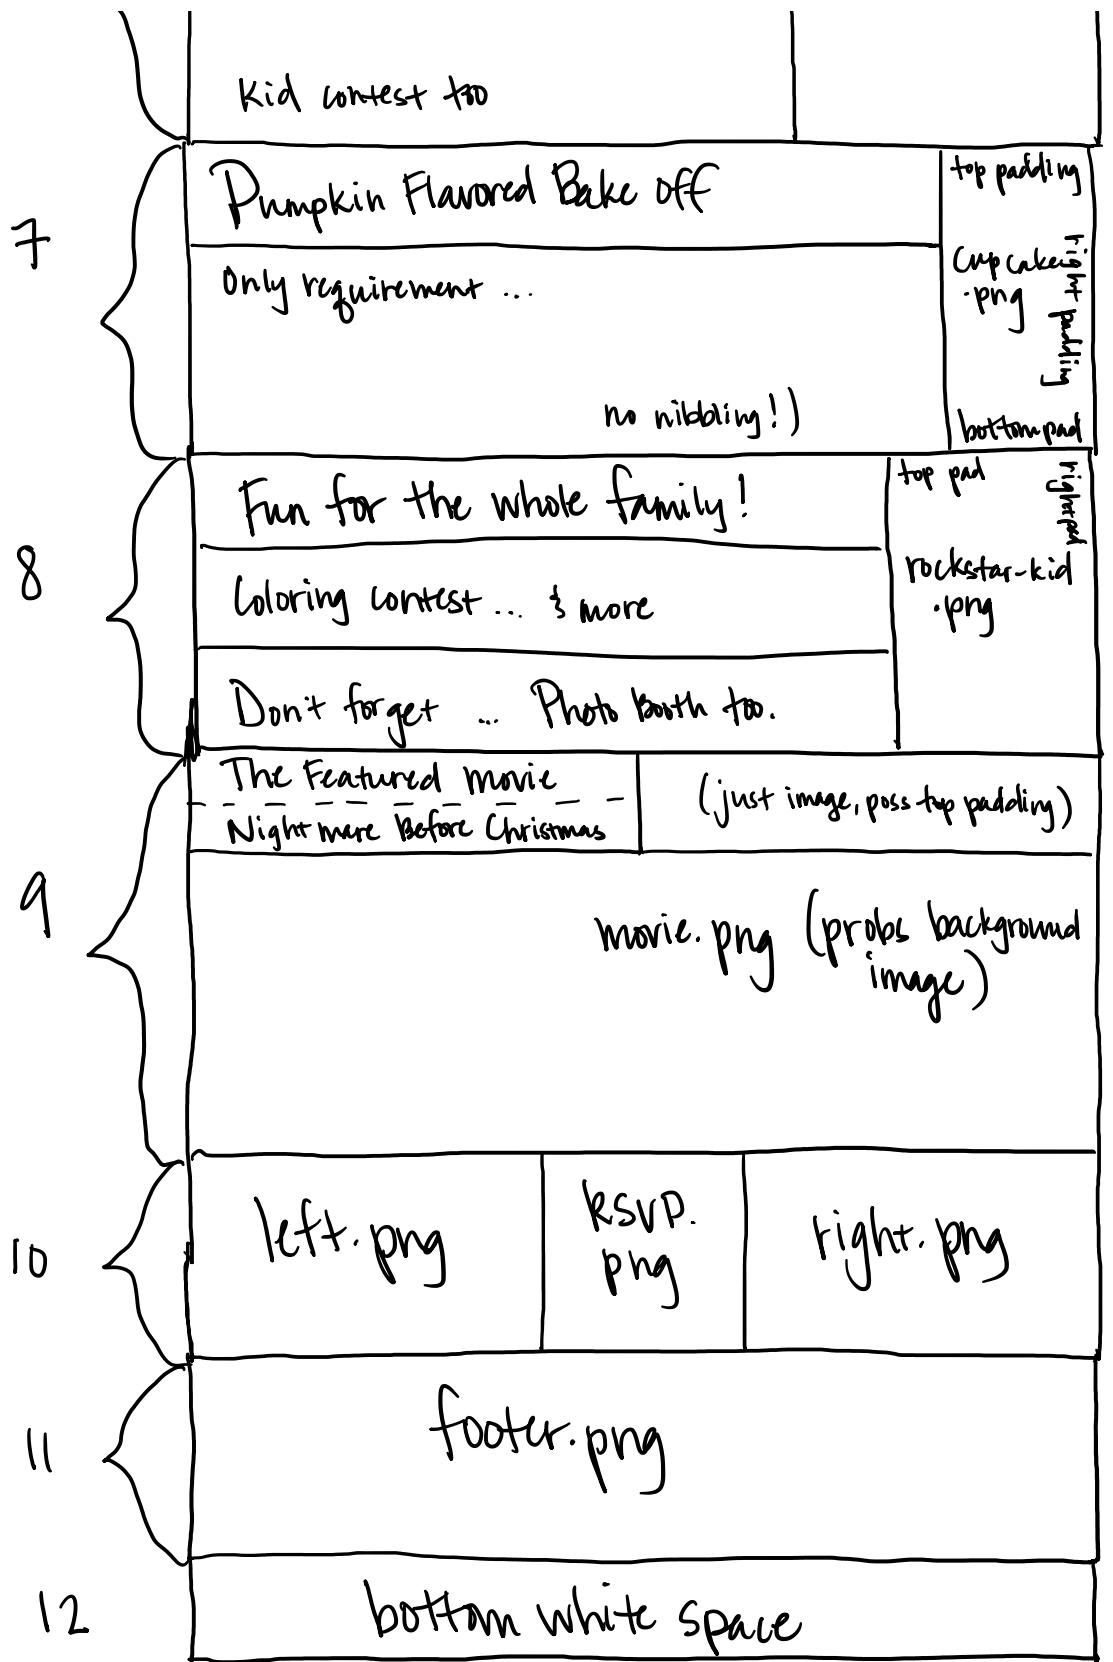

colspan 2
around nested table

- google how to do that

k

padding, but right, possibly bottom under text

2

next two sections simi
lightest orange backg

will need padding all ar
also possibly fronts
not to scale - slightly +
medium orange backg

top, left, right padding,

& not to scale, short

Instead of columns, (email on acid blog said no floats; use align:)
lar
ound, white font

round

aller than represented
round, white font

no bottom under image, bottom under text

r than represented
